MANISTEE – BENZIE COMMUNITY MENTAL HEALTH

MANISTEE-BENZIE

41 MI – Manistee Children & Adults

Todd works well with K and K is very comfortable with Todd.

I have gotten the best care possible. I could not ask for better are!

Should be a better count of offering jobs – should be started a whole real – so government program!

I did notice a change in case managers.

Good job.

Great job ACT team!

I would like to thank everyone in CMH for all the support and help, for all the things they have done to get me where I am today.

I am recommending a friend to your office and I am hoping that you will be able to give her the consideration and help that you have been able to give to me.

I feel that Janelle has helped me so much to cope with every day life. I don't want to lose her. She is very understanding and listens to my needs and truly cares.

Mary has always been there to help me out. She went to all of my hearings.

I think she meets me at the right times. We are not rushed. Come before Christmas.

I am not sure which parts of my treatment are mandated or curtailed by state regulations

I did an counselor right away for my case, I really don't care if it is her/him.

Thank you!

I do have to say that my case manager Sarah has helped me more in the past two years than anyone else in my whole entire life. If I ever lose her, I don't know what I would do. There should be more like her and I think everyone would benefit.

I'm glad Gail was here to support me and all of my needs. She is very nice, clean, sweet, caring, very up front. She saved my mental state of mind. I feel very good after I talk to her and other staff members in this very serious time of my life. KAB is trying to kill me mentally and physically. I'm very frustrated and scared. Thank you, Jesus, for bringing these people in my life.

42 DD -- Manistee

I'm very satisfied with the services you provide my daughter.

Our case manager, Barb G, goes above and beyond her job requirements to help us meet S's needs. CMH has provided all the necessary supports to enable S to continue to live with her family.

I could not ask for a better representative than I have. She goes beyond to meet all my needs.

Barb, Don and Cindy are the best!

Help people.

43 MI – Benzie Children & Adults

I don't like the spend downs. The spend down program has been a pain in the ass. This causes more problems and anxiety in clients.

When I say I need help, please listen to me. Please and thank you for all your help!

I welcome anyone from CMH into my home for the wonderful help they have given me. I believe I have a long ways in getting better, with their help. I believe their meetings with me have helped. I enjoy Linda's visit and suggestions or anyone else that may come from time to time. I appreciate all the help Linda has given me and everyone else in the past. They all are appreciated. The Act Team were all wonderful also. I miss all of them. I thank everyone for their help. I couldn't of done it without everyone's help. I enjoy everyone's smiles. Thank you for my opinion. Have a good day.

Continue with the program.

I am frustrated with my depression and frustrated trying so many mediations and being more sick from them because of my other medical problems; arthritis, fibromyalgia, etc.

None at this time, all is well.
