Schools. As such he has exemplified a collaborative spirit in our joint efforts to deliver services that positively impact the overall success of children through his support of the SafeNet program as well as all children's service delivered through Centra Wellness Network.

SafeNet is a school based program provided by Centra Wellness Network in collaboration with public schools in Manistee and Benzie counties. It is designed to optimize the potential for school and family success for those served. SafeNet Prevention Specialists assist in facilitating open communication and partnership between the school, family, and community resources as well as improve student problem solving and healthy lifestyle skills. SafeNet services have been provided for more than 10 years in our two counties.
